Description	The polyethylene Parking Post is a perfect solution to mark parking areas and pathways, but also to close off in a visible way spaces, where a customer wishes no human or machine traffic at any times. This product can be used as a temporary or semi-permanent bollard: when empty inside, it can be easily moved from place to place, when filled is with water it becomes a semi-permanent solution. Additionally, the posts can be stacked to reach required height. Product available in yellow, black or grey. Red/white foil supplied separately.
